

**My name is Carla J. Neal.
I am running for State Assembly
District 5, as the Democratic
endorsed candidate against the
Republican incumbent.**

*I believe that three of the most
important issues we face are:*

1. Making sure *everyone* has access to a first class public education;
2. Restructuring the economy for benefit of working families so there are well paying jobs for *everyone*;
3. Reforming politics by getting big money out, cleaning up gridlock and corruption.

I will listen to you. I will accept donations only from companies committed to a sustainable environment and to keeping good middle class jobs here.

Let's work together for a better California in 2018!
Vote Carla J. Neal June 5th & Nov. 6th

*We will work together to foster
peace and make all people's lives
better by:*

- providing quality, affordable healthcare for all;
- building a strong, shared local economy;
- ensuring our environment is strong and healthy;
- restoring our forests and wildlands;
- protecting communities from wildfire by restoring a natural fire regime;
- ensuring clean water and air for all;
- building sustainable communities together;
- providing for our common good with justice, progress and compassion;
- providing protections for civil and human rights;
- ensuring that everyone pays their fair share of tax

CARLA J. NEAL

for California State Assembly, District 5
